I am going to challenge all of you make a decision today to be the very best person you can be. I am going to present for you the 7 Habits of Highly Effective Kids. Some of you have heard about these habits before and that's great.

Habit: The dictionary says that a habit is something we do over and over again without having to think about it too much. There are bad habits and there are good habits. Today we are going to focus on good habits; things we all need to do over and over again that help ourselves and to help others.

Puzzle: To do this I will use the giant puzzle

Habit 1: Be Proactive (You are in charge)

To be proactive is to have the ability to choose your response (response-ability). This is the opposite of "Reactive". "Pro" means before and "Re" means after. Proactive people take responsibility for themselves, actions, decisions, moods and attitudes.

Trick: Sword Box "Do what's right even when the wrong is popular"

Habit 2: Begin with the End in Mind (Have a plan)

To begin with the end in mind means that we start with a clear understanding of our destination. Setting goals provides a roadmap for all of us. If we aim at nothing we will hit it every time. For example I would guess that all the students would like to make new friends this year. So if "more friends" is the goal what do we have to do to get there? I would like to share 6 secrets to having more friends:

1. Smile a lot
2. Speak friendly words to everyone
3. Listen carefully to others
4. Be yourself
5. Encourage others
6. Don't be bossy or a know it all

Habit 3: Put First Things First (Work first, then play)

We need to decide what things are really the very most important things in our lives. Then we need to plan how and when we are going to take care of, or do those things. Prioritize, and do the most important things first. For example, if the goal is to be a "**Successful Student**" how should we prioritize these activities? TV, Nintendo, Homework/Reading, Chores/Helping Others, Healthy Living, Play With Friends,

Habit 6: Synergize (Together is better)

Synergy is a result of everyone working together. The results of two or more people working together can be better than the individuals working alone. This habit involves looking at alternatives, listening to other’s views and valuing differences.

1. Are you taking care of your body and physical health?
2. Are you learning new things all the time and exercising your mind?
